Scientific Games Appoints Rich Wasserman as Senior Vice President of Product Engineering

Former Amazon, Facebook and Stitch Fix Exec to Lead Product Engineering for Global Lottery Provider

ATLANTA – February 24, 2026 – Scientific Games has named Rich Wasserman as Senior Vice President of Product Engineering. Wasserman brings more than 20 years of experience leading global engineering, data science and product organizations across complex, high-performance technology platforms.

As the industry's fastest-growing lottery systems technology provider, Scientific Games continues to invest in technology and talent to deliver seamless consumer experiences across lottery retail and digital channels.

Wasserman previously held senior leadership roles at Amazon and Facebook, where he led large-scale systems powered by advanced analytics and machine learning. Most recently, he served as Vice President of Engineering and Data Science at Stitch Fix, leading integrated teams focused on automation and platform optimization. Wasserman holds a Ph.D. in Electrical Engineering and a degree in Computer Science from the University at Buffalo.

In his new role, Wasserman will lead Product Engineering across Scientific Games' global product portfolio serving government-regulated lotteries, advancing hardware and software platforms to accelerate innovation, expand analytics capabilities and consumer-engagement to deliver long-term value for lottery customers worldwide.

"We're excited to add Rich's deep technical expertise scaling innovative, AI-driven platforms at world-class organizations to further strengthen Scientific Games' technology leadership," said Pat McHugh, Chief Executive Officer of Scientific Games. "As we continue investing in innovation and analytics across retail and digital lottery solutions, his experience and leadership will help us deliver the next generation of high-performance products that drive sustainable growth for our lottery customers worldwide."

Scientific Games serves more than 150 lotteries globally with a comprehensive portfolio of retail systems, digital platforms, instant games and analytics solutions.
