Martha Hernandez of Scientific Games Receives NASPL 2012 Powers Award

ALPHARETTA, GA – August 8, 2012 – Scientific Games Corporation (Nasdaq: SGMS) announced that Martha Hernandez, Account Executive for Scientific Games, was a 2012 Powers Award recipient at the North American Association of State and Provincial Lotteries' (NASPL) Professional Development Seminar held recently in Orlando, Florida. Hernandez is a 21-year veteran of the lottery industry and one of the industry's first client service professionals to receive the prestigious Powers Award, presented annually by NASPL in recognition of significant contributions lottery and vendor employees have made through exceptional performance.

"Scientific Games is very proud of Martha's accomplishments managing several of our largest U.S. lottery customers, including the Massachusetts, Arkansas and South Carolina Lotteries," said Rhonda Gillen, Vice President of Creative and Customer Service for Scientific Games. "To have one of our lottery customers nominate her for the Powers Award is a testament to Martha's exceptional project management and customer relationship expertise. She is one of the most knowledgeable account executives in the industry."

The Powers Awards are named in honor of the late Edward J. Powers, the "Father of all U.S. Lotteries" and according to NASPL, a name that is synonymous with success. Powers spent more than 25 years in the industry and his work defines the organizational blueprint for today's lotteries. Each year, lottery directors and

members of lottery executive management teams have the opportunity to submit nominations for Powers Awards candidates who have made outstanding contributions to lottery organizations or to the lottery industry.

Martha Hernandez is an Account Executive at Scientific Games, where she is responsible for all phases of game development for her lottery customers, from initial planning to final art, prize structure development and delivery. In addition to serving the Massachusetts, Arkansas and South Carolina lotteries, she has also worked as an Account Executive for Scientific Games' lottery customers in New Mexico and Italy.

About Scientific Games

Scientific Games Corporation is a global leader in providing customized, end-to-end gaming solutions to lottery and gaming organizations worldwide. Scientific Games' integrated array of products and services includes instant lottery games, lottery gaming systems, terminals and services, and internet applications, as well as server-based interactive gaming terminals and associated gaming control systems.

Forward-Looking Statements

In this press release the Company makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "continue," "believe," "expect," "anticipate," "could," "potential," "opportunity," or similar terminology. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; material adverse changes in economic and industry conditions; technological change; retention and renewal of existing contracts and entry into new or revised contracts; availability and adequacy of cash flows to satisfy obligations and indebtedness or future needs; protection of intellectual property; security and

integrity of software and systems; laws and government regulation, including those relating to gaming licenses, permits and operations; inability to identify, complete and integrate future acquisitions; inability to benefit from, and risks associated with, strategic equity investments and relationships; failure of Northstar to meet the net income targets or otherwise realize the anticipated benefits under its private management agreement with the Illinois Lottery; seasonality; inability to identify and capitalize on trends and changes in the lottery and gaming industries, including the potential expansion of regulated gaming via the internet; inability to enhance and develop successful gaming concepts; dependence on suppliers and manufacturers; liability for product defects; fluctuations in foreign currency exchange rates and other factors associated with international operations; influence of certain stockholders; dependence on key personnel; failure to perform on contracts; resolution of pending or future litigation; labor matters; and stock price volatility. Additional information regarding risks and uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in the Company's filings with the Securities and Exchange Commission, including under the heading "Risk Factors" in our periodic reports. Forward-looking statements speak only as of the date they are made and, except for the Company's ongoing obligations under the U.S. federal securities laws, the Company undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
