

## **OHIO LOTTERY PARTNERS WITH SCIENTIFIC GAMES FOR EXPANDED INSTANT GAME MANAGEMENT SERVICES USED BY TOP PERFORMING LOTTERIES WORLDWIDE**

**LAS VEGAS and ATLANTA – December 4, 2019** – [Scientific Games Corporation](#) (NASDAQ: SGMS) (“Scientific Games” or the “Company”) announced the Ohio Lottery Commission (the “Lottery” or “Ohio Lottery”) has awarded the Company a new four-year contract for its *Scientific Games Enhanced Partnership* (SGEP) to manage all aspects of its instant “Scratch Off” games. The new partnership expands Scientific Games’ services to the Ohio Lottery to include game development, portfolio management, inside sales, advanced logistics for warehousing and distribution and retailer optimization that includes the deployment of the Company’s SCiQ® intelligent instant game eco-system to 300 retailers.

The Ohio Lottery joins more than 20 lotteries around the globe, including four of the Top 5 lotteries in the country based on weekly per capita sales performance, who participate in the SGEP program. A longtime provider of the Ohio Lottery’s instant games, Scientific Games has managed the Lottery’s instant games since 2015, helping grow the Lottery to one of the Top 20 in the world for instant game total sales (*La Fleur’s Almanac*).

“We are proud to continue working with the Ohio Lottery to manage its portfolio of instant games from start to finish through *Scientific Games Enhanced Partnership*. Led by business analytics, this new partnership will help grow profits for the state’s public education system, which is the real beneficiary of this new contract,” said John Schulz, Senior Vice President, Lottery Instant Products for Scientific Games.

Scientific Games will provide an integrated portfolio of unique game content, products and managed services designed to maximize Lottery proceeds, including its latest generation *SciTrak Ultra®* suite of instant game management tools, which complements the Company’s SCiQ intelligent instant game retail ecosystem already proving successful with participating Ohio Lottery retailers. The Lottery will continue to tap Scientific Games’ 45 years of insights and analytics for instant games, now with several lottery data scientists specifically assigned to their business.

Under other contracts, the Company currently provides the Ohio Lottery with instant games and related services such as licensed properties and second-chance games played via online/mobile.

Scientific Games launched the world’s first secure retail instant game in 1974, the first digital instant game in the U.S. in 2014, and is the leading provider of lottery interactive games, mobile apps, player loyalty programs and other interactive products and services in the U.S. lottery industry. The Company is also the fastest growing lottery systems technology provider in the U.S.

### **Forward-Looking Statements**

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks, uncertainties and other factors, including those factors described in our filings with the Securities and Exchange Commission (the "SEC"), including Scientific Games' current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on February 28, 2019 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
